In accordance with the provisions of the Georgia Air Quality Act, O.C.G.A. Section 12-9-1, et seq and the Georgia Rules for Air Quality Control, Chapter 391-3-1, adopted pursuant to and in effect under the Act, the Permittee described above is issued an amendment to the Part 70 Operating Permit for:

Updating permit conditions (3.2.3 and 3.3.3 through 3.3.5).

This Permit Amendment is conditioned upon compliance with all provisions of The Georgia Air Quality Act, O.C.G.A. Section 12-9-1, et seq, the Rules, Chapter 391-3-1, adopted and in effect under that Act, or any other condition of this Amendment and Permit No. **2421-115-0016-V-06-0**. Unless modified or revoked, this Amendment expires simultaneously with Permit No. **2421-115-0016-V-06-0**. This Amendment may be subject to revocation, suspension, modification or amendment by the Director for cause including evidence of noncompliance with any of the above; or for any misrepresentation made in App No. TV-523940 dated December 16, 2020; any other applications upon which this Amendment or Permit No. **2421-115-0016-V-06-0** are based; supporting data entered therein or attached thereto; or any subsequent submittal or supporting data; or for any alterations affecting the emissions from this source.

This Amendment is further subject to and conditioned upon the terms, conditions, limitations, standards, or schedules contained in or specified on the attached **2** pages.

PART 1.0 FACILITY DESCRIPTION**1.3 Process Description of Modification**

There is no change to facility operation/processes currently in effect at Georgia-Pacific Wood Products South LLC Lumber Plant (hereinafter “facility”). The facility’s current permit limits operation of the Planer Mill (ID No. PM) to 6400 hours per year. Stack testing in May 2020 demonstrated compliance with the Planer mill $PM_{2.5}$ and PM_{10} hourly emission limits in Conditions 3.3.3 and 3.3.5.

Since the tested hourly PM_{10} and $PM_{2.5}$ emission rates are lower, the facility is able to operate up to 8,760 hours per year, and the planer mill replacement project described in Title V Application No. 313461 (dated December 12, 2018) would not trigger any PSD review for PM_{10} and $PM_{2.5}$. Therefore, the facility requested to remove all requirements related to the 6,400-hr/yr limit from the permit.
